Export and Shipping Statistics—William C. Flaherty

Export Statistics—Milton Kaufman

Except for a few shipments of negligible importance, Lend-Lease exports in this month represented shipments made under the Lend-Lease program for which arrangements for repayment were completed prior to the exportation of the merchandise. In many cases, these arrangements apply to merchandise which was in Lend-Lease procurement channels at the cessation of hostilities with Japan and call for a substantial down payment by foreign governments with the remainder to be paid in 20 to 30 years. In other cases, the arrangements involved the full cash payment prior to the exportation of the merchandise.

A complete discussion of the compilation procedures and coverage for the statistics included in this report will be found in the foreword to the 1942 edition of Foreign Commerce and Navigation of the United States. Copies of the foreword are obtainable upon request.

*Destination should have been reported as France. Revision will appear in the February 1946 report.

Commodity descriptions and country names are abbreviated in this report where space does not permit complete description. See Part II of Schedule B, Statistical Classification of Domestic and Foreign Commodities Exported from the United States, for complete commodity descriptions and partial list of items included in each, and Schedule C, Code Classification of Countries (published as a part of Schedule B), for unabbreviated country names. Export and Shipping Statistics—William C. Flaherty
Export Statistics—Milton Kaufman

Except for a few shipments of negligible importance, Lend-Lease exports in this month represented shipments made under the Lend-Lease program for which arrangements for repayment were completed prior to the exportation of the merchandise. In many cases, these arrangements apply to merchandise which was in Lend-Lease procurement channels at the cessation of hostilities with Japan and call for a substantial down payment by foreign governments with the remainder to be paid in 20 to 30 years. In other cases, the arrangements involved the full cash payment prior to the exportation of the merchandise.

A complete discussion of the compilation procedures and coverage for the statistics included in this report will be found in the foreword to the 1942 edition of Foreign Commerce and Navigation of the United States. Copies of the foreword are obtainable upon request.

REPORT No. FT-425

Prices for Report No. FT-425 are as follows:

Calendar year 1944 and 1945, each	$0.15
Monthly, beginning with figures for January 1945	15
Yearly subscription, including monthly and calendar year statistics	1.25

Except for a few shipments of negligible importance, Lend-Lease exports in this month represented shipments made under the Lend-Lease program for which arrangements for repayment were completed prior to the exportation of the merchandise. In many cases, these arrangements apply to merchandise which was in Lend-Lease procurement channels at the cessation of hostilities with Japan and call for a substantial down payment by foreign governments with the remainder to be paid in 20 to 30 years. In other cases, the arrangements involved the full cash payment prior to the exportation of the merchandise.

A complete discussion of the compilation procedures and coverage for the statistics included in this report will be found in the foreword to the 1942 edition of Foreign Commerce and Navigation of the United States. Copies of the foreword are obtainable upon request.

REPORT No. FT–425

Prices for Report No. FT 425 are as follows:

Calendar year 1944 and 1945, each	$0.15
Monthly, beginning with figures for January 1945	.15
Yearly subscription, including monthly and calendar year statistics	1.25

Except for a few shipments of negligible importance, Lend-Lease exports in this month represented shipments made under the Lend-Lease program for which arrangements for repayment were completed prior to the exportation of the merchandise. In many cases, these arrangements apply to merchandise which was in Lend-Lease procurement channels at the cessation of hostilities with Japan and call for a substantial down payment by foreign governments with the remainder to be paid in 20 to 30 years. In other cases, the arrangements involved the full cash payment prior to the exportation of the merchandise.

A complete discussion of the compilation procedures and coverage for the statistics included in this report will be found in the foreword to the 1942 edition of Foreign Commerce and Navigation of the United States. Copies of the foreword are obtainable upon request.

EXPORTS OF FOREIGN MERCHANDISE..... 26

Commodity descriptions and country names are abbreviated in this report where space does not permit complete description. See Part II of Schedule B, Statistical Classification of Domestic and Foreign Commodities Exported from the United States, for complete commodity descriptions and partial list of items included in each, and Schedule C, Code Classification of Countries (published as a part of Schedule B), for unabbreviated country names. A separate edition of Schedule C showing the countries, adjacent provinces, territories and islands included under each country of destination is also available.

The omission of a commodity classification or country name from this report indicates no transactions.
